

SHIMANSKY

Ring Size Guide - USA[®]

[Click here](#) to watch a video tutorial on how to use the Shimansky Ring Size Guide.

Printing Instructions: (For USA Letter Size - 8.5 x 11 in)

1. Ensure your printer's page sizing setting are set to 'none' or 'actual size'. The 'fit to page' box must be unchecked.
2. Print the page and check the accuracy of the print by placing a ruler on the bar to the right →
It should measure exactly 2cm.

Option 1: Use an existing ring

1. Use an existing band, if you have one, which can lie flat and fits the desired finger. Place ring on top of the above circles and find the circle that fits the inside diameter of your ring.
2. Ensure there are no gaps between the inside of the ring and the circle.

Option 2: The Shimansky Ruler

1. Cut out the Shimansky Ruler on the right side of the page along the outlines.
2. Cut a slit along the dotted line.
3. Feed the tip of the ruler through the back of the slit and place around your finger.
4. Pull the tip of the ruler until the strip fits snug around your finger. Read the ring size by the arrow marker.

Terms & Conditions:

The above Shimansky Ring Size Guide is a guideline only. Ring sizes can vary depending on the style of the ring or the shape of the finger. By using this guide, Shimansky and/or its employees are exempt from any responsibility and/or reliability for the accuracy of the guide. It is recommended to have your ring size measured physically at your local jeweler or [contact us](#) to request a free ring sizing kit.
